CARES
PhD Cancer Research School 2026

After two successful rounds of CARES, giving us 72 alumni, we now welcome you to apply for a new round of our PhD Cancer Research School. This is an interactive and interdisciplinary research school covering state-of-the-art methodology and fostering skilled cancer research fellows. CARES is funded by the Swedish Cancer Society. The research school comprises 5 on-line courses (1.5 hp each) covering both clinical and pre-clinical research, an exchange program and retreats during an 18 month period starting September 2026.

An admissions committee will review all applications. Applicants should have at least two years remaining of their PhD studies.

For more information and application:
